*South Carolina and West Virginia require SPA program review; other options indicated are allowed only when a program does not have a corresponding SPA

- Educator Preparation Providers (EPPs) select program review option(s) as determined by the CAEP-state agreement. In the absence of a CAEP-state agreement, EPPs choose among the three program review options. If State Program Review is selected, the EPP must coordinate with its respective state to provide CAEP the state agency report on the EPP’s specialty licensure areas.
 - CAEP offers three program review options for CAEP accreditation for its state and non-U.S. partners to choose from:
 - SPA Program Review with National Recognition
 - CAEP Program Review with Feedback
 - State Program Review
 - The state may choose from among the three options or a combination of them for the review of specialty licensure areas by EPPs within its jurisdiction.
 - More information regarding program review options for CAEP accreditation can be found in the CAEP-State Partnership Agreements or by contacting state representative directly.
 - If an EPP does not submit its specialty licensure area for review in accordance with existing state or international partnership agreements, CAEP reserves the right to reschedule the site visit.
- *Available program review options may not align with state approval options. Please consult state consultant when selecting an option.
